INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and
Members of the Township Council
Township of Mine Hill
County of Morris, New Jersey
10 Baker Street
Mine Hill, New Jersey 07830

Report on the Financial Statements

We have audited the accompanying balance sheets-regulatory basis of the various funds of the Township of Mine Hill as of December 31, 2012 and 2011, and the related statements of operations and changes in fund balance-regulatory basis for the year then ended and the related statement of revenues-regulatory basis and statement of expenditures-regulatory basis of the various funds for the year then ended. These financial statements are the responsibility of the Township of Mine Hill's management. Our responsibility is to express opinions on these financial statements based on our audits.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. Except as discussed in the seventh paragraph, we conducted our audits in accordance with generally accepted auditing standards in the United States of America; audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and the standards applicable to financial audits contained in **Government Auditing Standards**, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

-Continued-

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

As described in Note 1, the Township of Mine Hill prepares its financial statements in conformity with accounting practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a comprehensive basis of accounting other than generally accepted accounting principles. The effects on the financial statements of the variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

We were unable to obtain sufficient evidence to support the cost of the fixed assets of the general fixed assets account group, or fixed assets of the utility general capital account. As more fully described in Note 1, due to the length of time over which these fixed assets were acquired, it is not practical to determine their actual cost. We are, therefore, unable to express an opinion as to the general fixed asset account group and the utility general capital fixed assets at December 31, 2012 stated at \$17,315,517 and \$4,299,244 respectively, and \$16,847,765 and \$4,299,240 respectfully for 2011.

In our opinion, because of the Township's policy to prepare its financial statements on the basis of accounting discussed in the sixth paragraph, the financial statements referred to above do not present fairly the respective financial position of the Township of Mine Hill at December 31, 2012 and 2011, or the results of its operations, in conformity with generally accepted accounting principles in the United States of America.

However, in our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the general fixed asset account group and utility fixed assets been audited, the financial statements-regulatory basis referred to above present fairly, in all material respects, the financial position-regulatory basis of the various funds of the Township of Mine Hill, as of December 31, 2012 and 2011, and the results of operations and changes in fund balance-regulatory basis of such funds for the year then ended and the statement of revenues-regulatory basis and statement of expenditures-regulatory basis of the various funds for the year then ended, on the basis of accounting described in Note 1.

-Continued-

Other Matters

Other Information

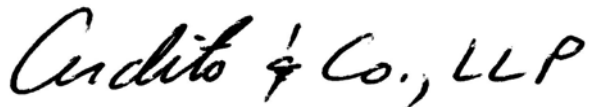

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Mine Hill's basic financial statements. The supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information exhibits are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole, on the basis of accounting described in Note 1 to the financial statements.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated April 30, 2013, on our consideration of the Township of Mine Hill's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance with the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Township's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

GASB Statement No.14 established criteria to be used to determine which component units should be included in the financial statements of the oversight entity. The Division requires the financial statements of the Township to be reported separately.

The financial statements of the Township of Mine Hill include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Township. The financial statements of the Township do not include the operations of the Board of Education.

B. Description of Funds

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB Codification establishes seven fund types and two account groups to be used by governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States of America(GAAP).

The accounting policies of the Township of Mine Hill conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Mine Hill accounts for its financial transactions through the following separate funds, which differ from the fund structure required by GAAP.

Current Fund

Resources and expenditures for governmental operations of a general nature, including State grants for operations.

Trust Funds

Records the receipts, disbursement and custodianship of monies in accordance with the purpose for which each account was established.

General Capital Fund

The receipts and disbursement of funds for the acquisition of general infrastructure and other capital facilities, other than those acquired in the Current Fund. General bonds and notes payable are recorded in this fund offset by deferred charges to future taxation.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Description of Funds (Continued)

Water Operating and Capital Fund

Account for the operations and acquisition of capital facilities of the municipality-owned Water Utility.

Sewer Operating and Capital Fund

Account for the operations and acquisition of capital facilities of the municipality-owned Sewer Utility.

Special Garbage District Fund

Account for the operations and collection of special district taxes for the cost of providing garbage collection.

General Fixed Assets Account Group

To account for all fixed assets of the Township. The Township's infrastructure is not reported in the group.

C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from generally accepted accounting principles applicable to local government units. The more significant policies in New Jersey follow.

A modified accrual basis of accounting is followed with minor exceptions.

Revenues--are recorded as received in cash except for certain amounts which are due from other governmental units. Receipts from State grants are realized as revenue when anticipated in the Township budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Township's Current Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Township which are susceptible of accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

Expenditures--are recorded on the "budgetary" basis of accounting. Generally expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31, are reported as a cash liability in the financial statements and constitute part of the Township's statutory Appropriation Reserve balance. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be cancelled by the governing body.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis, whereas interest on utility indebtedness is on the accrual basis.

Property Tax Revenue--Real property taxes are assessed locally, based upon the assessed value of the property. The tax bill includes a levy for Municipal, County, Open Space and School purposes. The bills are mailed annually in June for that calendar year's levy. Taxes are payable in four quarterly installments on February 1, May 1, August 1 and November 1.

The amounts of the first and second installments are determined as one quarter of the total tax levied against the property for the preceding year. The installment due the third and fourth quarters is determined by taking the current year levy less the amount previously charged for the first and second installments, with the remainder being divided equally.

If unpaid on these dates, the amount due becomes delinquent and subject to interest at 8% per annum, or 18% on any delinquency amount in excess of \$1,500. The school levy is turned over to the Board of Education as expenditures are incurred, and the balance, if any, must be transferred as of June 30, of each fiscal year. County taxes are paid to the County by the Township quarterly on February 15, May 15, August 15 and November 15. The Open Space Levy is paid quarterly to the Township's other trust funds on February 15, May 15, August 15 and November 15.

When unpaid taxes or any municipal lien, or part thereof, on real property remains in arrears after the eleventh day of the eleventh month in the year in which they are due, the collector in the municipality shall, subject to provisions of the New Jersey Statutes, enforce the lien by placing the property on a tax sale. Annual in rem tax foreclosure proceedings are instituted to enforce the tax collection or acquisition of title to the property by the Township.

In accordance with the accounting Principles prescribed by the State of New Jersey, current and delinquent taxes are realized as revenue when collected. Since delinquent taxes and liens are fully reserved, no provision has been made to estimate that portion of the taxes receivable and tax title liens that are uncollectible. GAAP required tax revenues to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

Foreclosed Property--Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved.

Interfunds--Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Inventories of Supplies--The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories are not included on the various balance sheets.

General Fixed Assets (Unaudited)--In accordance with Technical Accounting Directive No. 85-2, Accounting for Governmental Fixed Assets, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles, the municipality develops a fixed asset accounting and reporting system.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

General fixed assets are recorded at estimated historical cost except for land which is recorded at 1992 assessed values, and buildings which are recorded at 1992 replacement values. Infrastructure assets are not included in general fixed assets, as per state directive. Major renewals and betterments are charged to the asset accounts; maintenance and minor repairs and replacements, which do not improve or extend the lives of the respective assets, are expensed currently. Donated fixed assets are valued at their fair market value on the date donated. No depreciation has been provided on general fixed assets. The total value recorded for general fixed assets is offset by a "Reserve for General Fixed Assets." When properties are retired or otherwise disposed of, the asset and the reserve are adjusted accordingly. Assets recorded in the General Fixed Assets Account Group may also be recorded in the Current Fund, General Capital Fund and Utility Capital Funds. The values recorded in the General Fixed Assets Account and the Current and Capital Funds may not always agree due to differences in valuation methods, timing of recognition of assets, and the recognition of infrastructures.

Property and equipment purchased by the Utility Funds is recorded in the Utility Capital accounts at cost and are not adjusted for disposition and abandonment. The amounts shown do not purport to represent replacement costs or current value. Contributions in aid of construction are not capitalized. The balances in the Reserve for Amortization and Deferred Reserve for Amortization accounts in the Utility Capital Funds represent charges to operations for the costs of acquisitions of property, equipment and improvements. The utilities do not record depreciation on fixed assets.

Budget and Budgetary Procedures--The foundation of the New Jersey local finance system is the annual cash basis budget required under the Local Budget Law (N.J.S.A.40A:4-1, et seq.). Every local unit must adopt a budget in the form required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Certain items of revenue and appropriation are regulated by law and the proposed budget must be certified by the Director of the Division ("Director") prior to final adoption. The normal budget calendar begins early in the fiscal year with introduction, public advertisement and after state approval, budget adoption. The cash basis for revenues and budgetary basis for expenditures is the budget basis of accounting.

The Township is not required to adopt budgets for the following funds:

**General Capital Fund
Trust Fund**

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Budget and Budgetary Procedures (Continued)

The governing body shall introduce and approve the annual budget not later than February 10, of the fiscal year. The budget shall be adopted not later than March 20, and prior to adoption, must be certified by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The Director of the Division of Local Government Services, with the approval of the Local Finance Board, may extend the introduction and approval and adoption dates of the municipal budget. The budget is prepared by fund, function, activity and line item (salary or other expense) and includes information on the previous year.

The legal level of control for appropriations is exercised at the individual line item level for all operating budgets adopted. Emergency appropriations, those made after the adoption of the budget and determination of the tax rate, may be authorized by the governing body of the municipality. During the last two months of the fiscal year, the governing body may, by a 2/3 vote, amend the budget through line item transfers. Management has no authority to amend the budget without the approval of the Government Body. Expenditures may not legally exceed budgeted appropriations at the line item level.

Expenditures--Are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with an encumbrance accounting system. Outstanding encumbrances at December 31, are reported as a cash liability in the financial statements. Unexpended or uncommitted appropriations at December 31, are reported as expenditures through the establishment of appropriations reserves unless cancelled by the governing body. GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Tax Appeals and Other Contingent Losses--Losses which arise from tax appeals and other contingent losses are recognized at the time an unfavorable decision is rendered by an administrative or judicial body.

Deferred Charges to Future Taxation Funded and Unfunded--Upon the authorization of capital projects, the Township establishes deferred charges for the costs of the capital projects to be raised by future taxation. Funded deferred charges relate to permanent debt issued, whereas unfunded deferred charges relate to temporary or non-funding of the authorized cost of capital projects. According to N.J.S.A.40A:2-4, the Township may levy taxes on all taxable property within the local unit to repay the debt. Annually, the Township raises the debt requirements for that particular year in the current budget. As the funds are raised by taxation, the deferred charges are reduced.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Comparative Data - Comparative data for the prior year has been presented in the accompanying balance sheets and statements of operations in order to provide an understanding of changes in the municipality's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

Use of Estimates--The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. This will affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from these estimates.

Departures from Generally Accepted Accounting Principles--The accounting principles and practices followed by the Township differ generally accepted accounting principles applicable to local government units. The more significant differences are as follows:

- Taxes and other receivables are fully reserved.
- Interfund receivables in the Current Fund are fully reserved.
- Unexpended and uncommitted appropriations are reflected as expenditures.
- Overexpended appropriations and emergency appropriations are deferred to the succeeding years' operations.
- Undetermined contributions to state-administered pension plans applicable to the six months ended December 31 are not accrued.
- Estimated losses arising from tax appeals and other contingencies are not recorded when it is probable that a loss has been incurred and the amount of such loss can be reasonably estimated.

It was not practicable to determine the effect of such difference.

Statutory-Basis Financial Statements--The GASB Codification also defines the financial statements of a governmental unit to be presented to be in accordance with GAAP. The Township presents the financial statements listed in the table of contents which are required by the Division and which differ from the financial statements required by GAAP. In addition, the Division requires the financial statements listed in the table of contents to be referenced to the supplementary schedules. This practice differs from GAAP.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Note 2: CASH AND CASH EQUIVALENTS

Deposits:

New Jersey statutes require that municipalities deposit public funds in public depositories located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. Municipalities are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the municipality's accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the municipality would not be able to recover the value of its deposits or investment). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized or collateralized with securities held by the financial institution's trust department or agent but not in the government's name. At December 31, 2012, all of the municipality's deposits were collateralized by securities held in its name and, accordingly, not exposed to custodial credit risk. The municipality does not have a policy for custodial credit risk.

As of December 31, 2012, cash and cash equivalents of the municipality consisted of the following:

	Cash and Cash <u>Equivalents</u>	<u>Total</u>
Checking	\$ <u>2,323,386</u>	\$ <u>2,323,386</u>

The carrying amount of the municipality's cash and cash equivalents at December 31, 2012, was \$2,323,386 and the bank balance was \$2,427,450. All bank balances were covered by federal depository insurance and/or covered by a collateral pool maintained by the banks as required by New Jersey statutes. Of these bank balances, \$554,538 was covered by federal depository insurances and \$1,872,912 was covered by collateral pool.

Fund Balances at December 31, 2012, which were appropriated and included as anticipated revenue in their own respective funds for the year ending December 31, 2013, were as follows:

Current Fund	\$270,000	(Introduced Budget)
Water Utility Fund	\$30,000	(Introduced Budget)
Sewer Utility Fund	None	(Introduced Budget)
Special Garbage District	None	(Introduced Budget)

Note 6: DEFERRED CHARGES TO BE RAISED IN SUCCEEDING BUDGETS

Certain expenditures are required to be deferred to budgets of succeeding years. The Township elected to fund various capital ordinances over a five year period through the municipal operating budget. At December 31, 2012, the Township recorded the following deferred charges which are included in the following budgets:

	Balance <u>12/31/11</u>	Raised as 2012 Budget <u>Appropriation</u>	Resulting <u>from 2012</u>	Balance to Succeeding <u>Budgets</u>
<u>Current Fund:</u>

The appropriations in the 2013 Budget are not less than that required by statute.

Note 7: SCHOOL TAXES

The Township of Mine Hill has elected not to defer school taxes. School taxes are levied and collected in the period to which they relate, July 1 through June 30, and are turned over to the school district on a monthly basis.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 8: PENSIONS

Description of Plans - All required employees of the Township are covered by the Public Employees' Retirement System which has been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, obligations of the System will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 55 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

The PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation - Legislation enacted during the year ended June 30, 1997, (Chapter 115, P.L. 1997) changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by 1/2 of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the Township's normal contributions to the Fund may be reduced based on the revaluation of assets.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 8: PENSIONS-(Continued)

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PERS provides for employee contributions of 5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in PERS. The actuarially determined contribution includes funding for both cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums.

Note 9: POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2011 there were 93,323 retirees receiving post-retirement medical benefits. The cost of these benefits is funded through contributions by the state in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The state is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The state paid \$144 million toward Chapter 126 benefits for 15,709 eligible retired members in Fiscal Year 2011.

GASB Statement #45 requires certain disclosures relating to governmental entities obligations for other post-employment benefits (OPEB), which are post-employment benefits other than pensions. The Municipality does not provide post-employment benefits other than pension.

Note 10: ACCRUED SICK AND VACATION BENEFITS

As discussed in Note 1 and in accordance with accounting principles prescribed by the State of New Jersey, the cash basis of accounting is followed for recording the liability related to unused sick pay.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

Note 10: ACCRUED SICK AND VACATION BENEFITS-(Continued)

The Township has, through contractual obligation, permitted Department of Public Works employees to accrue unused vacation and sick pay, which may be taken as time off or paid at a later date at an agreed upon amount as determined by the Township council. At the time of audit the cost of such unpaid compensation totaled \$18,536. Such compensation would be included in the Township's budget operating expenditures in the year it is used.

Note 11: CONTINGENT LIABILITIES

GRANT PROGRAMS

The Township participated in a number of state assisted grant programs administered at the state level. These programs, exclusive of the single audit concept, can be subject to program compliance audits by the grantors or their representatives. Accordingly, the Township's compliance with certain applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the Township expects such amounts, if any, to be immaterial.

LITIGATION

The Township is involved with various litigation matters. We are advised by Township Counsel, that the Township is involved in current litigation matters that could have a material impact on the Financial Statements, however the financial impact is unknown at this time.

Note 13: RISK FINANCING

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage. There were no significant reductions in insurance coverage from coverage in the prior year.

Note 16: OTHER POST-RETIREMENT BENEFITS

Plan Description. The Mine Hill Township contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP. Mine Hill Township authorized participation in the SHBP's post-retirement benefit program through resolution in accordance with the provisions of Chapter 88, P.L. 1974, as amended by Chapter 436, P.L. 1981.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295 or by visiting their website at <http://www.state.nj.us/treasury/pensions/audit-rpts-2012/shbp-12.pdf>

Funding Policy: Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Mine Hill Township on a monthly basis.

The Mine Hill Township contributions to SHBP for the years ended December 31, 2012, 2011, and 2010, were \$80,687, \$54,935 and \$49,225 respectively, which equaled the required contributions for each year. There were approximately six retired participants eligible at December 31, 2012, 2011, and 2010.

GENERAL COMMENTS

Scope of Audit

The audit of the financial statements of the Township of Mine Hill, County of Morris, New Jersey, as required by the Division of Local Government Services, covered the financial transactions of the Treasurer, Tax Collector, the activities of the Township and various outside departments.

Contracts and Agreements Requiring Advertisement for Bids

Effective April 17, 2000, N.J.S.A.40A:11-1 et.seq (Local Public Contracts Law) was revised by P.L.1999,c.440 (originally known as Assembly Bill No. 3519). Rules and regulations pertaining to the amended law are to be promulgated by the Division of Local Government Services.

N.J.S.A. 40A:11-3 is amended to read as follows:

- a. When the cost or price of any contract awarded by the purchasing agent in the aggregate, does not exceed in the contract year the total sum of \$17,500, the contract may be awarded by a purchasing agent when so authorized by resolution of the governing body without public advertising for bids and bidding therefore, except that the governing body may adopt a resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If the purchasing agent is qualified pursuant to subsection b. (pending before the Legislature as section 15 of this bill) of section 9 of P.L.1971,c.198(C.40A:11-9) the governing body may establish that the bid threshold may be up to \$25,000. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.
- b. Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to paragraph (i) of paragraph (a) of subsection (1) of Section 5 of P.L.1971, C.198(C.40A:11-5) may be awarded for a period not exceeding 12 consecutive months. The Division of Local Government Services shall adopt and promulgate rules and regulations concerning the methods of accounting for all contracts that do not coincide with the contracting unit's fiscal year.
- c. Commencing in the fifth year after the year in which P.L.1999,c.440 takes effect, and every five years thereafter, the Governor, in consultation with the Department of Treasury, shall adjust the threshold amount and the higher threshold amount which the governing body is permitted to establish as set forth in subsection a. of this section or the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in N.J.S.18A:18A-2(pending before the Legislature as section 50 of this bill), and shall round the adjustment to the nearest \$1,000. The Governor shall notify all municipal units of the adjustment no later than June 1 of every fifth year. The adjustment shall become effective on July 1 of the year in which it is made.

N.J.S.A.40A:11-4 (as amended) states, "Every contract or agreement for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this chapter or specifically by any other law."

Effective July 1, 2011, the bid threshold in accordance with N.J.S.A.40A:11-3(c) (as amended) is increased to \$36,000 for Qualified Purchasing Agents (QPA), and \$17,500 for units without QPA's.

The governing body of the municipality has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Township Counsel's opinion should be sought before a commitment is made.

The Minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.40A:11-5.

The system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not determine whether any clear-cut violations existed.

My examination of expenditures did not reveal any individual payments, contracts or agreements in excess of the statutory thresholds "for the performance of any work or the furnishing or hiring of any materials or supplies" other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provisions of N.J.S.40A:11-6.

Collection of Interest on Delinquent Taxes and Assessments

The statute provides the method of authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body, on January 1, 2012, adopted the following resolution authorizing interest to be charged on delinquent taxes:

"On all delinquents to and including December 31, 2011, at the rate or rates heretofore governing, and on all delinquents on and after January 1, 2012, at the rate of 8% per annum for and upon the first \$1,500 of the delinquency, the rate of 18% per annum for and upon any amount of the delinquency in excess of \$1,500, and the rate of 6% per annum for and upon any amount in excess of \$10,000; and that a grace period of 10 days will be allowed on taxes due February 1, May 1, August 1, and November 1. If taxes are not paid by the 10th, interest shall be charged from the due date.

The governing body, on January 1, 2012 adopted a resolution enabling the \$10,000 delinquency penalty provisions.

The audit of the Collector's records on a test basis indicated no differences between the amount of interest payable on delinquent tax payments, based on our calculations, and the amount of interest charged.

Delinquent Taxes and Tax Title Liens

The delinquent taxes at December 31, 2012, include real property taxes from the 2012 tax levy.

Inspection of tax sale certificates on file revealed that all tax sale certificates from tax sales were available for audit.

The following comparison is made of the number of tax title liens receivable on December 31 of the last three years:

<u>Year</u>	<u>Number of Liens</u>
2012	22
2011	22
2010	22

It is essential to good management that all means provided by statute be utilized to liquidate tax title liens in order to get such properties back on a taxpaying basis.

Verification of Delinquent Taxes and Other Charges

Verification notices were mailed to confirm balances as of December 31, 2012. The items that were returned were compared to and are in agreement with the Township's records. For items not returned, alternative procedures were performed.

A test verification of delinquent charges and current payments was made in accordance with verification procedures approved by the Division of Local Government Services. A summary of such verification is as follows:

Type of Receivable - Real Property Tax				
Date of Circulars - December 31, 2012-Real Estate				
<u>Verification Type</u>	<u>Request Form</u>	<u>Total No. of Items</u>	<u>Total No. of Circular</u>	<u>Total No. Returned</u>

2013 Property Tax	Positive	1,507	60	25
2012 Delinquent Tax	Negative	167	25	8

N.J.A.C. 5:30-5 (Technical Accounting Directives)

During the calendar year 1984, the Division of Local Government Services initiated as part of the Single Audit Law, a planned revision of the Requirements of Audit to provide new accounting requirements mandated for most local government units. The revision to the Requirements of Audit and Accounting would be in order to improve fiscal accountability for all local governments, satisfy federal-state audit requirements and enhance the credibility for New Jersey municipal accounting practices with federal-state funding sources and bond rating agencies. The new requirements for most local units started January 1, 1986, unless exemption, based upon amount of federal aid received and population size, was formally secured. The Division in 1988 notified those exempted municipal units of a transition requirement for fully implementation of all accounting directives beginning in the 1989 fiscal periods. The identity and compliance status of the Township of Mine Hill to these new directives are as follows:

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Honorable Mayor and
Members of the Township Council
Township of Mine Hill
County of Morris, New Jersey
10 Baker Street
Mine Hill, New Jersey 07830

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Local Governments Services, Department of Community Affairs, State of New Jersey, the financial statements of the Township of Mine Hill in the County of Morris, State of New Jersey, as of and for the fiscal year ended December 31, 2012 and 2011, and the related notes to the financial statements, which collectively comprise the Township of Mine Hill's basic financial statements, and have issued our report thereon dated April 30, 2013, which indicated that the financial statements have been prepared in conformity with accounting practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a comprehensive basis of accounting other than generally accepted accounting principles. The general fixed asset account group and utility fixed assets were not included in the scope of our audits.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Township's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

-Continued-

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies in internal control over financial reporting, listed as findings 2012-1 and 2012-7. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* which are described in the accompanying schedule of findings and responses as items 2012-5.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TOWNSHIP OF MINE HILL

NOTES TO THE SCHEDULES OF FEDERAL AND STATE AWARDS
DECEMBER 31, 2012

NOTE 1. GENERAL

The accompanying Schedules of Expenditures of Federal and State Awards present the activity of all federal and state award programs of the Township of Mine Hill. The Township of Mine Hill is defined in Note 1 to the Township's financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies, are included on the schedules of expenditures of federal and state awards.

NOTE 2. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal and State Awards are presented using the modified accrual basis of accounting. The information in these schedules is presented in accordance with the requirements of federal OMB Circular A-133, Audits of States, Local Governments and Nonprofit Organizations.

NOTE 3. RELATIONSHIP TO THE FINANCIAL STATEMENTS

The accompanying Schedules of Expenditures of Federal and State Awards are presented using the modified accrual basis of accounting. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the financial statements.

SCHEDULE OF FINDINGS AND RESPONSES

GENERAL FINDINGS

YEAR ENDED DECEMBER 31, 2012

Summary of Auditor's Results

basis of accounting as a result of the general fixed assets account group not being included in the scope of the audit.

The audit did not disclose any material weaknesses in the internal controls of the Township.

The audit did not disclose any noncompliance that is material to the financial statements of the Township.

The Township was not subject to the single audit provisions of Federal OMB Circular A-133 or New Jersey OMB Circular NJOMB 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid for 2012 as grant expenditures were less than the single audit thresholds of \$500,000, identified in the Circulars.

Findings Relating to the Financial Statements which are required to be Reported in Accordance with Generally Accepted Government Auditing Standards:

Finding

2012-1 * Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction. Consequently, the possibility exists that unintentional or intentional errors or irregularities could exist and not be promptly detected.

The receipts, disbursements, and reconciliation functions of the Treasury department are performed by one employee. While this situation is not unusual in operations of a municipality of this size, management should be aware of this condition and realize that the concentration of duties and responsibilities in a limited number of individuals is not desirable from a control point of view.

Adequate segregation of duties should be maintained with respect to the recording and treasury functions. Procedures should be developed to adequately segregate the receipts, disbursements, and reconciliation functions of the Treasury department.

2012-2 * Over \$343,000 of tax title liens remain outstanding as of December 31, 2012. Property tax levies on these properties are added to liens in excess of \$16,000 annually, of which the township has to bear the full cost of the related local school and county tax levies.

All statutory means should be utilized to liquidate tax title liens in order to get such properties back on a taxpaying basis.

2012-3 * I noted various aged grant receivables and spending reserves.

I recommend that the township investigate the disposition of aged grant receivables and reserves.

2012-4 * I noted approximately \$18,600 in tax overpayments from 2002 to 2011.

I recommend that the township refund or apply the tax overpayments to current taxes.

SCHEDULE OF FINDINGS AND RESPONSES

GENERAL FINDINGS-(Continued)

YEAR ENDED DECEMBER 31, 2012

2012-5 * Fixed Asset ledgers have not been maintained on a perpetual basis.

I recommend that the township conduct a physical inventory or appraisal of the fixed assets. Periodic updates should occur to safeguard township assets.

2012-6 * Cash balances are recorded on the General Capital Fund that are in possession of the Attorney for the escrow purposes of property clean-up, per NJ DEP, related to a 2008 property acquisition.

I recommend that the Township pursue collection of the attorney escrow funds and determine ultimate disposition.

2012-7 Bank reconciliations for the current, water, sewer, payroll and payaroll agency accounts were not prepared in a timely basis for the period June 2012 through December 2012.

I recommend that the Township implement controls to ensure the timely completion of bank reconciliations.
