Hi Everyone

We have a major Nor'easter bearing down on us. Please adhere to the following during the storm.

1. ALL cars must be off the street once snow begins falling and streets are snow covered. "Snow covered" additionally means if the DPW is still clearing streets, even AFTER the snow stops, your cars must be off the street. Just because the snow has stopped doesn't mean you can park on the street. **Do move cars tonight before bedtime. Ticketing and towing will be in effect for this storm. No warnings will be given by the police.**

2. DO NOT throw snow back in the street. Do not clean your car off in the street unless you shovel it all back onto your property. If you have a plow company, let them know YOU will get the fine, not them. PLEASE adhere to this.

3. Sidewalks are required to be cleared within 24 hours. Due to the magnitude of this storm, some leeway is acceptable, but within a day or 2 please get them cleared please.

4. BRING IN YOUR PETS. This shouldn't require any explanation. Pets should not be outside in this kind of weather.

In case of power outages, we might open the civic center if needed. Dial 888lightss if your power goes out and report it.

JCPL is bringing in extra crews to handle outages.

Please share this with your neighbors who don't have swiftreach.
