PART I

FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

YEAR ENDED DECEMBER 31, 2010

### Independent Auditors' Report

The Honorable Mayor and Members  
of the Township Council  
Township of Mine Hill  
Mine Hill, New Jersey

We have audited the financial statements of the various funds of the Township of Mine Hill in the County of Morris (the "Township") as of, and for the years ended December 31, 2010 and 2009, as listed in the table of contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express opinions on these financial statements based on our audits.

Except as discussed in the fourth paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

As described in Note 1, these financial statements have been prepared in conformity with accounting principles prescribed by the Division that demonstrate compliance with the modified accrual basis, with certain exceptions, and the budget laws of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the statutory basis of accounting and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

We were unable to obtain sufficient evidence to support the cost of the fixed assets of the general fixed assets account group. As more fully described in Note 1, due to the length of time over which these fixed assets were acquired, it is not practical to determine their actual cost. We are, therefore, unable to express an opinion as to the general fixed assets account group at December 31, 2010 and 2009 stated at \$15,097,765 and \$15,088,006, respectively.

In our opinion, because the Township prepares its financial statements on the basis of accounting discussed in the third paragraph, the financial statements referred to in the first paragraph, do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Township as of December 31, 2010 and 2009, and the results of its operations for the years then ended.

The Honorable Mayor and Members  
of the Township Council  
Township of Mine Hill  
Page 2

However, in our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the general fixed assets account group been audited, the financial statements referred to above, present fairly, in all material respects, the financial position of the various funds of the Township of Mine Hill at December 31, 2010 and 2009, and the results of operations and changes in fund balances, where applicable, of such funds thereof for the years then ended, in conformity with accounting principles prescribed by the Division, as described in Note 1.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 23, 2011, on our consideration of the Township of Mine Hill's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our audits were conducted for the purpose of forming opinions on the financial statements taken as a whole. The information included in the supplementary schedules listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The accompanying schedules of expenditures of federal and state awards are also presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and New Jersey OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid* and are not a required part of the financial statements. This information has been subjected to the auditing procedures applied in the audits of the financial statements mentioned above and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole, on the basis of accounting described in Note 1 to the financial statements and Note B to the schedules of expenditures of federal and state awards.

TOWNSHIP OF MINE HILL  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010

Note 1: Summary of Significant Accounting Policies

A. Reporting Entity

Except as noted below, the financial statements of the Township of Mine Hill include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Township of Mine Hill, as required by N.J.S. 40A:5-5. Accordingly, the financial statements of the Township of Mine Hill do not include the operations of the municipal library or volunteer fire and first aid squads.

Governmental Accounting Standards Board ("GASB") codification section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e., benefit of economic resources, access/entitlement to resources, and significance) should be included in the financial reporting entities. As the financial reporting entity was established in accordance with New Jersey statutes, the requirements of GASB codification section 2100 were not followed and, accordingly, the reporting entity could be different from accounting principles generally accepted in the United States of America.

B. Description of Funds

The accounting policies of the Township of Mine Hill conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"). Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Mine Hill accounts for its financial transactions through the following separate funds:

Current Fund - Resources and expenditures for governmental operations of a general nature, including federal and state grant funds.

Trust Funds - Receipt, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created.

General Capital Fund - Receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the Current Fund.

B. Description of Funds (Cont'd)

Water Utility Operating and Capital Funds – Account for the operations and acquisition of capital facilities of the municipally owned water utility.

Sewer Utility Operating and Capital Funds – Account for the operations and acquisition of capital facilities of the municipally owned sewer utility.

Special Garbage District Fund - Collection of special district taxes for the cost of providing garbage collection.

General Fixed Assets Account Group (Unaudited) – Estimated values of land, buildings and certain fixed assets of the Township as discussed in Note 1E - "Other significant accounting policies".

C. Basis of Accounting

Basis of accounting refers to when revenue and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounting policies of the Township of Mine Hill conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which differ in certain respects from accounting principles generally accepted in the United States of America applicable to local governmental units. The following is a summary of the significant policies.

Revenue is recorded when received in cash except for certain amounts which may be due from the State of New Jersey. Grant revenue is realized in the operating funds when it is budgeted and in the capital funds when improvements are authorized. The amounts recorded as property taxes and consumer accounts receivable have not been included in revenue. Amounts that are due to the municipality, which are susceptible of accrual, are recorded as receivables with offsetting reserves in the Current Fund.

Expenditures are charged to operations generally based on budgeted amounts. Exceptions to this general rule include:

1. Accumulated unpaid vacation, sick pay and other employee amounts are not accrued.
2. Prepaid expenses, such as insurance premiums applicable to subsequent periods, are charged to current budget appropriations in total.
3. Principal and interest on long-term debt are recognized when due.

Note 1: Summary of Significant Accounting Policies (Cont'd)

C. Basis of Accounting (Cont'd)

Expenditures, if any, in excess of appropriations, appropriation reserves or ordinances become deferred charges which must be raised by future taxes. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements and constitute part of the statutory appropriation reserve balance. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31 of each year and recorded as liabilities, except for amounts which may be cancelled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income.

Had the Township's financial statements been prepared under accounting principles generally accepted in the United States of America, encumbrances would not be considered as expenditures; appropriation reserves would not be recorded; revenue susceptible to accrual would have been reflected without offsetting reserves; Federal and State grants and assistance would be recognized when earned, not when awarded; inventories would not be reflected as expenditures at the time of purchase; and fixed assets purchased by the Water and Sewer Utility Capital Funds would be depreciated.

The cash basis of accounting is followed in the Trust and Capital Funds.

- D. Deferred Charges to Future Taxation – The Capital Fund balance sheet includes both funded and unfunded deferred charges. Funded deferred charges represent improvement authorizations where permanent financing has been obtained. Unfunded deferred charges represent improvement authorizations where no or temporary financing has been obtained. A municipality can permanently finance unfunded deferred charges through budget appropriation, grant funds, or by issuing bonds, loans or capital lease purchase agreements.

- E. Other significant accounting policies include:

Management Estimates – The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents – Amounts include petty cash, change funds, amounts on deposit, and short-term investments with original maturities of three months or less.

Investments – Investments are stated at cost or amortized cost, which approximates market.

Grants Receivable – Grants receivable represent total grant awards less amounts collected to date. Because the amount of grants funds to be collected are dependent on the total costs eligible for reimbursement, the actual amount collected may be less than the total amount awarded.

Allowance for Uncollectible Accounts – No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

Note 1: Summary of Significant Accounting Policies (Cont'd)

E. Other significant accounting policies include: (Cont'd)

Compensated Absences – Expenditures relating to unused vested accumulated vacation and sick pay are not recorded until paid.

Foreclosed Property - Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired, and is fully reserved.

Interfunds - Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories are not included on the various balance sheets.

General Fixed Assets (Unaudited)

General fixed assets are recorded at estimated historical cost except for land which is recorded at 1992 assessed values, and buildings which are recorded at 1992 replacement values. Infrastructure assets are not included in general fixed assets, as per state directive. Major renewals and betterments are charged to the asset accounts; maintenance and minor repairs and replacements, which do not improve or extend the lives of the respective assets, are expensed currently. Donated fixed assets are valued at their fair market value on the date donated. No depreciation has been provided on general fixed assets. The total value recorded for general fixed assets is offset by a "Reserve for General Fixed Assets." When properties are retired or otherwise disposed of, the asset and the reserve are adjusted accordingly. Assets recorded in the General Fixed Assets Account Group may also be recorded in the Current Fund, General Capital Fund and Utility Capital Funds. The values recorded in the General Fixed Assets Account and the Current and Capital Funds may not always agree due to differences in valuation methods, timing of recognition of assets, and the recognition of infrastructures. Capital assets are reviewed for impairment.

Property and equipment purchased by the Utility Funds is recorded in the Utility Capital accounts at cost and are not adjusted for disposition and abandonment. The amounts shown do not purport to represent replacement costs or current value. Contributions in aid of construction are not capitalized. The balances in the Reserve for Amortization and Deferred Reserve for Amortization accounts in the Utility Capital Funds represent charges to operations for the costs of acquisitions of property, equipment and improvements. The utilities do not record depreciation on fixed assets.

- F. Budget/Budgetary Control – Annual operating budgets are usually prepared in the first quarter for Current, Water Utility, Sewer Utility, Special Garbage District and Open Space Trust Funds. The budgets are submitted to the governing body and the Division of Local Government Services. Budgets are prepared using the cash basis of accounting. The legal level of budgetary control is established at the line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the flexible chart of accounts referenced in N.J.S.A. 40A. All budget amendments/transfers must be approved by the Township during the year.

Note 2: Long-Term Debt

The Local Bond Law governs the issuance of bonds to finance capital expenditures. All bonds issued by the Township are general obligation bonds and retired in serial installments within the statutory period of usefulness. The Township's full faith and credit and taxing power have been pledged to the payment of the general obligation debt principal and interest.

NJ Environmental Infrastructure Trust Loans

On August 20, 1998, the Township of Mine Hill entered into two loan agreements with the State of New Jersey, acting by and through the NJ Environmental Infrastructure Trust Fund (the "Fund"), and the NJ Environmental Infrastructure Trust (the "Trust"), in the aggregate amount of \$1,804,557, which represents direct obligations of the Township. The loan agreements were obtained to finance a portion of the cost of wastewater treatment system projects.

The Township has borrowed or "drawn down" \$1,293,805 for these projects and the remaining \$510,752 of unspent proceeds are being applied to reduce the original principal and interest payments. Principal payments to the Fund commenced February 1, 2001, and will continue on a semiannual basis over 17 years at zero interest. Principal payments to the Trust commenced on August 1, 2001, and will continue on a semiannual basis over 17 years. It is expected that interest will be paid from trust bond proceeds on deposit in the capitalized interest account (as defined in the bond resolution), and earnings on the debt service reserve fund (as defined in the bond resolution) will be transferred to such capitalized interest account. The Township will nonetheless be responsible for all such interest payments to the extent such trust bond proceeds and interest earnings are not available from the capitalized interest account.

Also, an annual administrative fee of fifteen one hundredths of one percent (.15%) of the initial principal amount of the loan or such lesser amount, if any, as the Trust may approve from time to time is payable on these loans.

Sewer Utility Refunding Bonds

The Sewer Utility Refunding Bonds represent permanent financing of the first two years of debt service payments for the Township's NJ Environmental Infrastructure Trust loan agreements due to the Township's Sewer Utility not being in full operation when debt service commenced.

Lease Purchase Agreement Payable

On September 15, 2006, the Township of Mine Hill entered into a lease purchase agreement with the Morris County Improvement Authority in the amount of \$251,250 with an interest rate of 4.34%, which represents a direct obligation of the Township. The lease purchase agreement was obtained to finance the purchase of vehicles. Principal payments commenced September 15, 2007 and will continue on an annual basis over 5 years.

On August 1, 2005, the Township of Mine Hill entered into a lease purchase agreement with the Morris County Improvement Authority ("MCLA") in the amount of \$552,750 with an interest rate of 3.69%, which represents a direct obligation of the Township. The lease purchase agreement was obtained to finance the purchase of a fire truck. Principal payments commenced August 1, 2006 and will continue on an annual basis over 10 years.

The following is a schedule of the future minimum lease payments under these capital leases, and the present value of the net minimum lease payments at December 31, 2010.

Note 3: Fund Balances Appropriated

Fund balances at December 31, 2010, which were appropriated and included as anticipated revenue in their own respective funds in the introduced budget for the year ended December 31, 2011 are:

Current Fund	\$ 255,000
Water Utility Operating Fund	8,400
Sewer Utility Operating Fund	35,978
Special Garbage District Fund	13,000

Note 4: Deferred Charges to be Raised in Succeeding Years

Certain expenditures are required to be deferred to budgets of the succeeding years. At December 31, 2010, the following deferred charge is shown on the balance sheet of the following fund:

Special Emergency Authorization (NJSA 40A:4-55)	<u>\$ 36,000</u>	<u>\$ 36,000</u>	<u>\$ - 0 -</u>

The 2011 Budget Appropriation is not less than that required by statute.

TOWNSHIP OF MINE HILL  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010

Note 5: Local School District Taxes

Regulations provide for the deferral of not more than 50% of the annual levy when school taxes are raised for a school year and have not been requisitioned by the school district.

The Township of Mine Hill has elected not to defer school taxes.

Note 6: Open Space Trust Fund

The Township created an Open Space Trust Fund during 2001 by ordinance which authorized an open space tax levy of up to \$.005 per \$100 of assessed property valuations. The Trust Fund is used to support costs associated with the acquisition and maintenance of open space properties in the Township. The balance in the Open Space Trust Fund was \$45,347.10 and \$42,176.29 as of December 31, 2010 and 2009, respectively.

Note 7: Pension Plans

Township employees are enrolled in one of two cost sharing multiple-employer public employee retirement systems: the Public Employees' Retirement System (PERS) or the Police and Firemen's Retirement System (PFRS) of New Jersey. The State of New Jersey sponsors and administers these two plans which cover substantially all Township employees. As a general rule, all full-time employees are eligible to join one of the two public employee retirement systems.

Employees who are members of PERS and retire at or after age according to the relevant tier category for that employee are entitled to a retirement benefit based upon a formula which takes "final average salary" during years of creditable service. Vesting occurs after 8 to 10 years of service. Enrolled PFRS members may retire at age 55 with a minimum of 10 years of service required for vesting.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625-0295.

The contribution policy is set by laws of the State of New Jersey and contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employee contributions are based on percentages of 5.5% for PERS and 8.5% for PFRS of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both funds. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits. In the PERS, the employer contribution includes funding for post-retirement medical premiums.

Township contributions to PERS amounted to \$80,327, \$69,993 and \$52,548 for 2010, 2009 and 2008, respectively. The annual pension cost ("APC") for PERS differs from the net pension obligation ("NPO") due to the enactment of Chapter 114, P.L. 1997 for 2008 as the APC was \$65,685 and the NPO was \$52,548. Township contributions to PFRS amounted to \$13,300, \$12,789 and \$12,272 for 2010, 2009 and 2008, respectively.

NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2010  
(Continued)

Note 8: Accrued Sick, Vacation and Compensatory Time

The Township policy allows the Department of Public Works employees to accrue sick and vacation time. The current cost of such unpaid compensation upon termination or separation from the Township would approximate \$14,950. This amount is not reported either as an expenditure or a liability. However, it is expected that the cost of such unpaid compensation would be included in the Township's budget operating expenditure in the year in which it is used.

Note 9: Post-Retirement Medical Benefits

In addition to the pension benefits described in Note 7, the Township provides other post-retirement benefits to certain Township employees after retirement, substantially similar in nature to the health benefits provided to employees presently working. The coverage applies to the employees and dependents. In the event of an employee's death, coverage ceases. In order to be eligible for this benefit, the employee must have a minimum of twenty (20) years of full-time service with the Borough.

The Township contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961, under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in the SHBP.

The Township adopted a resolution in accordance with the provisions of Chapter 88, P.L. 1974, as amended by Chapter 436, P.L. 1981, whereby employees are entitled to the following post-retirement medical benefits:

Upon retirement, full time employees with twenty-five (25) years in the State Pension Plan will receive full benefits (i.e., State of New Jersey Health Benefits Plan, prescription, dental, life insurance, vision and disability insurance plans) and reimbursement of Federal Medicare Program Part B premiums which will cover the retiring employee, their spouse and/or dependents.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to:

State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295.

Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Township on a monthly basis. The Township's portion of post-retirement benefits is funded on a pay-as-you-go basis from the Current, Water and Sewer Utility operating budgets.

Note 9: Post-Retirement Medical Benefits (Cont'd)

The Township's contributions to SHBP for the years ended December 31, 2010, 2009, and 2008 were \$49,225, \$43,509 and \$41,969, respectively, which equaled the required contributions for each year. The Township had 4 employees who met post-retirement eligibility requirements for health care benefits during 2010, 2009, and 2008.

The Township's contributions to post-retirement Federal Medicare Part B reimbursement benefits for the years ended December 31, 2010, 2009, and 2008 were \$6,946, \$4,627 and \$2,314, respectively, which equaled the required contributions for each year. There were 6 retired participants eligible at December 31, 2010, 2009, and 2008, respectively.

Note 10: Selected Tax Information

Property taxes are levied as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year. The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and the imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the prior year may be placed in lien at a tax sale held after April 1 and through December 31. Unpaid taxes of the current year may be placed in lien at a tax sale held after December 10.

Note 10: Selected Tax Information

Comparison of Tax Levies and Collections Currently

A study of this tabulation could indicate a possible trend in future tax levies.

A decrease in the percentage of current collection could be an indication of a probable increase in future tax levies.

<u>Year</u>	<u>Tax Levy</u>	<u>Currently</u>	
		<u>Cash Collections</u>	<u>Percentage of Collection</u>
2010	\$ 10,410,612	\$ 10,079,011	96.81%
2009	10,331,060	10,032,209	97.10%
2008	10,276,132	9,982,277	97.14%

Also, increases in future tax levies can also be warranted if revenue sources outside of those directly generated by the municipality, such as federal or state aid, should decline without corresponding decreases in budgeted expenditures.

Note 11: Deferred Compensation Plan

The Township offers its employees deferred compensation plans (the "plans") created in accordance with Section 457 of the Internal Revenue Code. The plans, which are administered by The Variable Annuity Life Insurance Company and Equitable, are available to all Township employees and permit participants to defer a portion of their salary. The deferred compensation is not available to employees until termination, retirement, unforeseeable emergency or upon death to their beneficiaries.

Note 12: Cash and Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Township classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40, *Governmental Accounting Standards Board Deposit and Investment Risk Disclosures* requires disclosure of the level of custodial credit risk assumed by the Township in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk – In accordance with its cash management plan, the Township ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Note 12: Cash and Cash Equivalents and Investments

Credit Risk – The Township limits its investments to those authorized in its cash management plan which are those permitted under state statute as detailed on the following page.

Deposits:

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds on deposit.

In addition to the above collateral requirement, if public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments:

New Jersey statutes permit the Township to purchase the following types of securities:

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations of the local unit or bonds or other obligations of school districts of which the local unit is a part or within which the school district is located;
- (5) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units;
- (6) Local government investment pools;
- (7) Deposits with the State of New Jersey Cash Management Fund; or

Investments

- (8) Agreements for the repurchase of fully collateralized securities if:
- (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) above;
  - (b) the custody of collateral is transferred to a third party;
  - (c) the maturity of the agreement is not more than 30 days;
  - (d) the underlying securities are purchased through a public depository as defined in statute; and
  - (e) a master repurchase agreement providing for the custody and security of collateral is executed.

As of December 31, 2010, cash and cash equivalents and investments of the Township of Mine Hill consisted of the following:

<u>Fund</u>	<u>Cash on Hand</u>	<u>Checking Accounts</u>	<u>Certificates of Deposit</u>	<u>Attorney's Escrow</u>	<u>Total</u>

During the period ended December 31, 2010, the Township held no investments other than certificates of deposits. The carrying amount of the Township's cash and cash equivalents at December 31, 2010, was \$3,378,850 and the bank balance was \$3,753,349. The \$110,846 in the Attorney's Escrow is uninsured and/or unregistered.

Note 13: Economic Dependency

The Township receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the Township's programs and activities.

	<u>\$ 298,331</u>	<u>\$ 298,331</u>

The Current Fund receivables are comprised of interest earnings due from the Animal Control Fund, Other Trust Funds, General Capital Fund and Payroll Agency and Net Payroll accounts at year end. The Federal and State Grant Fund receivable is due to grant receipts and disbursements from the Current Fund. The General Capital Fund receivable is due to an error in transferring cash to the Water Utility Operating Fund. The Water Utility Operating Fund receivable is comprised of tax sale proceeds due from the Current Fund, interest earnings due from the Water Utility Capital Fund and expenditures made on behalf of the Special Garbage District Fund. The Water Utility Capital Fund receivable is comprised of budget appropriations due from and expenditures made on behalf of the Water Utility Operating Fund. The Sewer Utility Operating Fund receivable is primarily comprised of a prior year balance and current year interest earnings due to the Sewer Utility Operating Fund. The Sewer Utility Capital Fund receivable is comprised of bond anticipation note proceeds due from the General Capital Fund.

**Note 16: Risk Management**

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Health benefits are provided to employees through the State of New Jersey Health Benefits Plan.

**Property and Liability**

The Township of Mine Hill is a member of the New Jersey Intergovernmental Insurance Fund (the "Fund"). The Fund is both an insured and self-administered group of municipalities established for the purpose of providing low-cost insurance coverage for general liability, property and workers' compensation in order to keep local property taxes at a minimum.

As a member of the Fund, the Township could be subject to supplemental assessments in the event of deficiencies. If the assets of the Fund were to be exhausted, members would become responsible for their respective shares of the Fund's liabilities.

The Fund can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided amongst the members in the same ratio as their individual assessment relates to the total assessment of the membership body. In accordance with Statement No. 10 of the Government Accounting Standards Board, these distributions are used to reduce the amount recorded for membership expense in the year in which the distribution was declared.

The December 31, 2010 audit report of the New Jersey Intergovernmental Insurance Fund is not filed as of the date of this audit. Selected financial information for the Fund as of December 31, 2009 is as follows:

	<u>Property and Liability</u>	<u>Workers' Compensation</u>
Total Assets	<u>\$ 18,290,418</u>	<u>\$ 19,258,806</u>

New Jersey Unemployment Compensation Insurance

The Township has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Township is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The Township is billed quarterly for amounts due to the State.

The following is a summary of Township and employee contributions, interest earnings and reimbursements to the State for benefits paid and the ending balance of the Township's expendable trust fund for the current and previous two years:

<u>Year</u>	<u>Township Contributions</u>	<u>Employee Contributions</u>	<u>Interest Earnings</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2010	\$ 2,000	\$ 3,230	\$ 28	\$ 3,699	\$ 5,956
2009	2,000	1,375	32	18,523	4,397
2008	2,500	-0-	199	-0-	19,513

Note 17: Contingencies

The Township is periodically involved in various lawsuits arising in the normal course of business, including claims for property damage, personal injury, and various contract disputes. The Township vigorously contests these lawsuits and believes the ultimate resolution would not have a material adverse effect on its financial position.

Amounts received or receivable from grantors, principally the federal and state governments are subject to regulatory requirements and adjustments by the agencies. Any disallowed claims, including amounts previously recognized by the Township as revenue would constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantors cannot be determined at this time, although Township officials expect such amounts, if any, to be immaterial.

Various tax appeals on assessed valuations have been filed against the Township and are awaiting tax court decisions. The ultimate outcome and effect of such appeals have not been determined; however, the Township Tax Assessor will aggressively defend the Township's assessments. The Township has funded a reserve for pending tax appeals on the Current Fund balance sheet at December 31, 2010 and 2009 in the amount of \$75,000 which it feels is sufficient for any such claims.

TOWNSHIP OF MINE HILL  
NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS  
YEAR ENDED DECEMBER 31, 2010

A. GENERAL

The accompanying Schedules of Expenditures of Federal and State Awards present the activity of all federal and state award programs of the Township of Mine Hill. The Township of Mine Hill is defined in Note 1 to the Township's financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies, are included on the schedules of expenditures of federal and state awards.

B. BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal and State Awards are presented using the modified accrual basis of accounting. The information in these schedules is presented in accordance with the requirements of federal OMB Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the financial statements.

C. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

D. STATE LOANS OUTSTANDING

The Township of Mine Hill has the following loan outstanding as of December 31, 2010:

Sewer Utility Capital Fund:

NJ Environmental Infrastructure Trust Loan

\$ 585,526

Currently, the Township is in the process of repaying the loan balance. There were no loan receipts or expenditures in the current year. The project which relates to the loan is complete.

Independent Auditors' Report on Internal Control Over Financial Reporting and  
on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards*

The Honorable Mayor and Members  
of the Township Council  
Township of Mine Hill  
Mine Hill, New Jersey

We have audited the financial statements of the Township of Mine Hill, in the County of Morris (the "Township") as of, and for the years ended, December 31, 2010 and 2009 and have issued our report thereon dated April 23, 2011, which indicated that the financial statements have been prepared on an other comprehensive basis of accounting. The general fixed assets account group was not included in the scope of our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Township's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs as Finding 2010-01 that we consider to be a significant deficiency in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The Honorable Mayor and Members  
of the Township Council  
Township of Mine Hill  
Page 2

### Compliance

As part of obtaining reasonable assurance about whether the Township's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain matters that we have reported in the "Comments and Recommendations" section of this report.

The Township's response to the finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit the Township's response and we express no opinion on it.

This report is intended solely for the information and use of management, the Mayor and Members of the Township Council, and to meet the requirements for filing with the Division of Local Government Services, and federal and state awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

TOWNSHIP OF MINE HILL  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED DECEMBER 31, 2010

Summary of Auditors' Results:

- A qualified report was issued on the Township's financial statements prepared on an other comprehensive basis of accounting as a result of the general fixed assets account group not being included in the scope of the audit.
- The audit did not disclose any material weaknesses in the internal controls of the Township.
- The audit did not disclose any noncompliance that is material to the financial statements of the Township.
- The Township was not subject to the single audit provisions of Federal OMB Circular A-133 and New Jersey OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* for 2010 as grant expenditures were less than the single audit thresholds of \$500,000, identified in the Circulars.

Findings Relating to the Financial Statements which are required to be Reported in Accordance with Generally Accepted Government Auditing Standards:

- The audit did not disclose any findings required to be reported under Generally Accepted Government Auditing Standards, except as follows:

Finding 2010-1

The Township does not maintain an adequate segregation of duties with respect to the recording and treasury functions. Segregation of duties refers to separating those functions that place too much control over a transaction or class of transactions that would enable a person to perpetuate errors and prevent detection within a reasonable period of time. The various departments or offices of the Township are responsible for the issuance of permits and licenses; collection of taxes, utility charges and permit and license fees; and recording of collections. Also, the Treasurer deposits and disburses funds (including payroll), reconciles the bank accounts and maintains the general ledger for all of the Township's funds or accounts. This is due, in part, to the limited number of personnel of the Township and the decentralized nature of governmental collection procedures. Accordingly, management and the Township Council should be aware of this situation and realize that the concentration of duties and responsibilities in a limited number of individuals is not desirable from a control point of view.

Management's Response:

This finding was evaluated by the governing body and administration; however, the Township is unable to resolve the finding at this time due to the associated costs and current budgetary constraints.

Findings and Questioned Costs for Federal Awards:

- Not Applicable since federal expenditures were below the single audit threshold.

Findings and Questioned Costs for State Awards:

- Not Applicable since state expenditures were below the single audit threshold.

TOWNSHIP OF MINE HILL  
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS  
FOR THE YEAR ENDED DECEMBER 31, 2010

The Township's prior year audit finding regarding segregation of duties has not been resolved and is included as current year Finding 2010-1.

COMMENTS AND RECOMMENDATIONS

YEAR ENDED DECEMBER 31, 2010

TOWNSHIP OF MINE HILL  
COMMENTS AND RECOMMENDATIONS

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4

N.J.S. 40A:11-3 states:

a. " When the cost or price of any contract awarded by the contracting agent in the aggregate does not exceed in a contract year the total sum of \$17,500, the contract may be awarded by a purchasing agent when so authorized by ordinance or resolution, as appropriate to the contracting unit, of the governing body of the contracting unit without public advertising for bids, except that the governing body of any contracting unit may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If the purchasing agent is qualified pursuant to subsection b. of section 9 of P.L. 1971, C.198 (N.J.S. 40A:11-9), the governing body of the contracting unit may establish that the bid threshold may be up to \$25,000. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.

b. Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to subparagraph (i) of paragraph (a) of subsection (1) of section 5 of P.L. 1971, C.198 (N.J.S. 40A:11-5) may be awarded for a period not exceeding 12 consecutive months. The Division of Local Government Services shall adopt and promulgate rules and regulations concerning the methods of accounting for all contracts that do not coincide with the contracting unit's fiscal year.

c. The Governor, in consultation with the Department of the Treasury, shall, no later than March 1 of every fifth year beginning in the fifth year after the year in which P.L. 1999, C.440 takes effect, adjust the threshold amount and the higher threshold amount which the governing body is permitted to establish, as set forth in subsection a. of this section, or the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in section 2 of P.L. 1971, C.198 (N.J.S. 40A:11-2), and shall round the adjustment to the nearest \$1,000. The Governor shall, no later than June 1 of every fifth year, notify each governing body of the adjustment. The adjustment shall become effective on July 1 of the year in which it is made."

N.J.S. 40A:11-4 states: "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body and subject to subsections b. and c. of this section, disqualify a bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder."

Effective July 1, 2005 and thereafter, the bid threshold in accordance with N.J.S. 40A:11-3 and 40A:11-4 (as amended) is \$21,000 and with a qualified purchasing agent the bid threshold may be up to \$29,000.

Effective July 1, 2010 and thereafter, the bid threshold in accordance with N.J.S. 40A:11-3 and 40A:11-4 (as amended) is \$26,000 and with a qualified purchasing agent the bid threshold may be up to \$36,000.

The governing body of the Township of Mine Hill has the responsibility of determining whether the expenditures in any category will exceed the bid threshold within the fiscal year and where question arises as to whether any contract or agreement might result in violation of the statute, the Township Attorney's opinion should be sought before a commitment is made.

TOWNSHIP OF MINE HILL  
COMMENTS AND RECOMMENDATIONS  
(Continued)

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4 (Cont'd)

The minutes indicated that bids were requested by public advertising per N.J.S. 40A:11-4. The minutes also indicated that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services," per N.J.S. 40A:11-5.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed. None were noted.

Collection of Interest on Delinquent Taxes and Utility Rents

The statute provides the method for authorizing interest and the maximum rate to be charged for the nonpayment of taxes or utility rents on or before the date when they would become delinquent.

On January 7, 2010, the governing body adopted the following resolution authorizing interest to be charged on delinquent taxes and utility rents:

BE IT RESOLVED by the Township Council of the Township of Mine Hill, Morris County, New Jersey, that the rate of interest to be paid upon delinquent taxes and utility rents for the year 2010 shall be fixed at the rate of 8% per annum to \$1,500 and any amount in excess of \$1,500 shall be fixed at the rate of 18% per annum. However, interest shall not be collected upon taxes and utility rents that are not delinquent over ten (10) days. After the tenth day of "grace period", interest reverts back to the due date. An additional penalty of 6% will be imposed on delinquencies in excess of \$10,000 at year end.

It appears from an examination of the Collector's records that interest was collected in accordance with the foregoing resolution.

Delinquent Taxes and Tax Title Liens

The following comparison is made of the number of tax title liens receivable on December 31, of the last three years:

<u>Year</u>	<u>Number of Liens</u>
2010	22
2009	21
2008	18

As it is essential to good management, it is recommended that all means provided by statute are utilized to liquidate tax title liens in order to get such properties back on a taxpaying basis.

Management's Response

The Township has initiated in-rem foreclosure procedures to begin to liquidate certain existing tax title liens.

TOWNSHIP OF MINE HILL  
COMMENTS AND RECOMMENDATIONS  
(Continued)

Outside Offices

During our review of the Building Inspector's records, we found that collections continued to be turned over to the Treasurer very infrequently rather than on a regular monthly basis. Improvement was made to ensure that the majority of collections were turned over by the end of the year.

It is recommended that the Building Inspector collections are turned over to the Treasurer on a regular monthly basis.

Management's Response

The Treasurer has closed the Building Inspector's bank account in 2011, and deposits will be made directly into the Treasurer's account.

Attorney's Escrow Account

As of December 31, 2010, \$110,311 remained in the attorney's escrow account which represents the balance to be paid to the seller of property to the Township upon remediation of one piece of the property. State statute requires that all municipal funds are held by the Chief Financial Officer. Although the Township's sales contract required the amount be held in escrow, the balance in the attorney's escrow account must be released to the buyer as soon as all conditions of the sale of property are met.

TOWNSHIP OF MINE HILL  
COMMENTS AND RECOMMENDATIONS  
(Continued)

Corrective Action Plan

The Township initiated a corrective action plan to resolve comments and recommendations from the 2009 audit report. The prior year recommendations have been repeated in the current year's audit with the exception of the following recommendations as they have been corrected during the year:

1. Grants receivable and unexpended improvement authorizations in the General, Water and Sewer Capital Funds are reviewed for collection, expenditure or cancellation.
2. All general ledgers are completely reconciled with the subsidiary ledgers and other supporting records.

TOWNSHIP OF MINE HILL  
SUMMARY OF RECOMMENDATIONS

It is recommended that:

1. Adequate segregation of duties is maintained with respect to the recording and treasury functions.
2. All means provided by statute are utilized to liquidate tax title liens in order to get such properties back on a taxpaying basis.
3. The Building Inspector collections are turned over to the Treasurer on a regular monthly basis.
