Electricity Aggregation Savings Plan Public Session

6-7:30 PM Thursday July 19th @ Town Hall

Hi All,

The town council and I are considering adopting an electricity aggregation savings plan that will allow residents to save money on their electric bills.

While this sounds obvious, there are a few things to discuss and understand before we adopt something like this.

1. This does not switch anyone from JCP&L. They are the electricity transmission company. They do not generate electricity, they just deliver it.
2. This plan requires, in accordance with state law, ALL residents be automatically adopted into the plan. You can easily opt out, but we aren't sure everyone would want this to happen.
3. If you have solar panels you aren't eligible.
4. The change in plan means your rates can NEVER be higher than JCP&L rates, only lower.

Since this will affect everyone, we recommend you come to the session and ask questions if you'd like.

We may or may not act on this on the 19th. We are still deciding.

-Mayor Sam Morris
